

Ultrasound Imaging Systems: Mapping the Global Industry

Brochure

Greystone
Research Associates

Consolidation in the medical imaging industry continues to alter the global landscape. Most recently Siemens Healthineers acquisition of Varian Medical Systems mirrors similar deals in the therapeutic segment, as market participants position and re-position themselves to address the considerable opportunities in the evolving oncology sector.

Using the information and data in the ERD, we have put together this data tool that describes the segment as it was in the first calendar quarter of 2020. The data tables, maps and visualizations in this publication have been specifically designed and created to assist market sector decision makers as they continue to navigate the worldwide market for medical imaging diagnostics.
