

Lyophilized Injectable Drugs to 2026

Products, Markets,
Therapeutics, Strategies &
Forecasts

Report Brochure

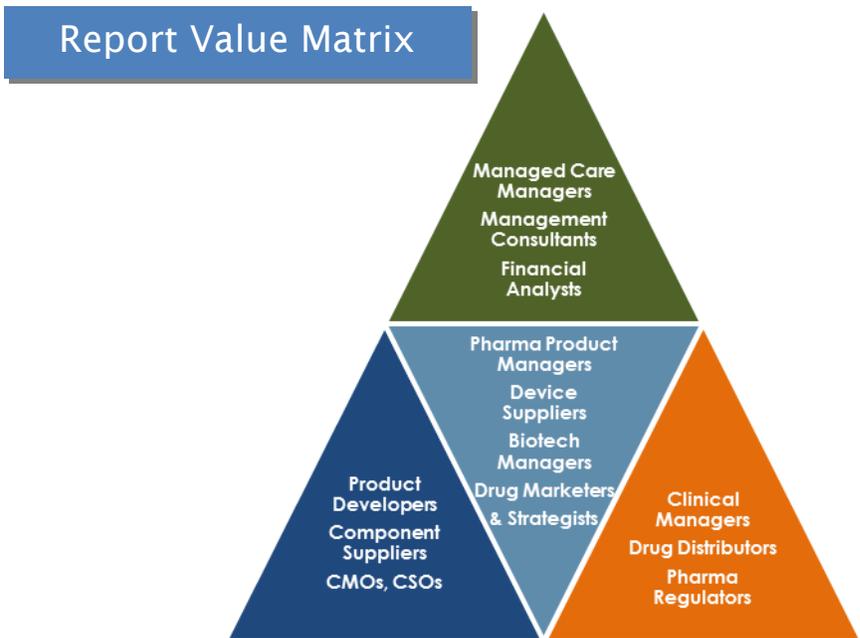

Greystone
Research Associates

Greystone Research Associates is pleased to announce the publication of a new market assessment. **Lyophilized Injectable Drugs to 2026: Devices, Products, Markets, Therapeutics, Strategies and Forecasts** is a comprehensive evaluation and analysis of the technology, products and participants providing the driving force behind this evolving segment of the healthcare sector. The study is designed to provide drug company decision makers, drug delivery developers, device designers, healthcare marketers, and supply chain participants with a detailed understanding of the economics, technologies, disease segments, and commercial opportunities for lyophilized injectable drugs. Provider organization business managers, healthcare administrators and investors will also benefit from this study.

Evolution in Therapeutic Care

The number of drugs supplied in lyophilized form has been growing at an increased rate over the past several years, mirroring the increase in the introduction of biological drugs. Liquid drugs that require refrigeration until dispensed – a requirement referred to as the ‘Cold Chain’ – can be formulated as powders to avoid the cost and logistics of cold storage. A number of factors are at play that are likely to influence the future demand picture for lyophilized drugs. Perhaps the most important is the underlying dynamics of the pharmaceutical and biotechnology marketplace as they apply to drug formulation and end user requirements.

Executive Summary

The Market Opportunity

Delivery Market Dynamics

The Economics of Lyophilized Drugs

What's Driving the Market for Lyophilized Drugs?

The Trend toward Self-Administration

Shifting Demographics

Innovation in Disposable Device Designs

Therapeutic Demand Drivers

Competitive Landscape

Risk Factors

Lyophilized Drugs – Primary Packaging

Single Use Vials

Point-of-Care Reconstitution

Specialty Packaging

Drugs for SC/IM Injection

Drugs for Infusion

Product Specific Devices

Lyophilized Drugs – Reconstitution and Delivery

Prefilled Diluent Syringes

Proprietary Reconstitution Devices

Single Step Devices

Multi-Step Devices

Human Engineering/Ergonomics

Lyophilized Drugs – Key Therapeutic Sector Analysis and Market Data

Antibiotics

Autoimmune Diseases

Blood Factors

Hormones

Infectious Diseases

Metabolic Conditions

Oncology

Reproductive Health

Other Important Therapeutic Classes

Market Factors

Regulatory Issues

Patient Compliance and Ease of Use

Healthcare Economics

Company Profiles

What You Will Learn

- Provides detailed analysis of lyophilized drugs, as-supplied packaging and therapeutic indication
- Analyzes therapeutic demand drivers and evaluates lyophilized drugs in eleven therapeutic areas
- Analyzes lyophilization technologies and market development issues
- Provides market data and forecasts to 2026
- Profiles market participants, their product development activities, business strategies, and corporate alliances and affiliations
- Assesses the importance of technology and regulatory factors on commercialization and market access

Report Format and Availability

This report is available electronic format. A site license for a single physical location and a corporate license are also available. Custom licensing options to address specific company user requirements are available by calling client services at 603-440-5710, or by emailing clientservices@greystoneassociates.org.

Methodology

Research methodology is based on primary research in the form of in-depth interviews with key market participants, technology developers, distributors, industry experts, and market influencers, a list that includes regulatory officials, industry trade groups, and materials standards organizations.

Primary data is evaluated and normalized against secondary sources including trade journal articles, technical literature, industry publications, company data sheets and published information, and statistical data from government agencies and trade associations.

Forecasts and projections of market demand and future market activity are derived using standard modeling and statistical techniques.

About Greystone Associates

Greystone Associates is a medical technology consulting firm focused on the areas of medical market strategy, product commercialization, venture development, and market research. We assist medical and healthcare market participants in achieving their business objectives through the creation of detailed development strategies, product commercialization programs, and comprehensive market and technology research and analysis.

Our market research publications are designed, researched and written to provide timely and insightful information and data on focused market segments, with the aim of providing market participants with the essential knowledge to refine and execute their marketing plans and financial targets.

Ordering Information

Orders may be placed via postal mail, e-mail or fax. Orders not accompanied by a purchase order must contain a telephone number for verification, and clearly indicate the physical shipping address and billing address.

Payment

We accept the following forms of payment:

Company Check: Please make checks payable to 'Greystone Associates'

Credit Cards: We accept MasterCard, Visa and American Express

Wire Transfers: See 'Wire Transfers' below for more information

Orders Outside the U.S.

Orders must be prepaid via credit card, company check in US funds and drawn on a US bank, or wire transfer.
